### SPECIAL CONSIDERATIONS

**All orders are ship under with a 5% allowance for misprints and defects.**

**Exact Counts** are not always possible due to garment/item flaws, defects and misprints. Please order extra garments or accept unders. Presses cannot be set up for replacements.

**Resized artwork:** When adding shirts to the order that require the exact same design in a different size, the combined quantity price would be used for all goods. An art charge and all new screens will be charged for the resized artwork. The second set of screens will also be charged on repeat orders (Min 144).

**Combined Whites/Darks or Cotton/Polyester garments:** These orders can be combined for a total quantity price by using the price of the more expensive print. e.g. Use dark price for order with both white & dark garments on the same order. Ink color changes, and/or screen charges may apply.

**Fragile fabrics** such as polyester may be limited to 1 or 2 color printing due to potential heat damage caused by flash units.

Printing on bags is subject to limitations and must be reviewed in advance.

**Returns:** Items not claimed within 60 days of receipt will be disposed of.

**JACKETS** Trademarks does not screen print on jackets. We will be glad to embroider or add a heat transfer to them for you.

Customer provided transfers must include the type of film used and the attachment instructions.

Some items must be tested to make sure they can withstand the heat of the transfer press. Please supply an item for testing if requested by the Production Manager.

**Specialty Printing**

All of these special locations require a sample garment and review by the production manager for maximum imprint. Sizes listed below are based on average garment.

Not all art or specialty inks can be imprinted on all garments, as special inks or techniques may have to be used.

For pockets, totes, shorts and some other items, the same screens cannot be used due to the required orientation of the screens. These need to be run as separate orders.
